*Enjoyable, flexible and rewarding.*

## Who are we looking for?

We are looking for professionals who are highly creative, have excellent time management, loves a good brew (ha!), are motivated, have some sales and networking experience and have an entrepreneurial mindset. We don't set any targets for you to meet but the more leads you generate, the more income you receive.

## How does it work?

The process is simple and hassle free.

We have three monthly social media management packages. Our services are very popular due to managing all aspects of a client's business social media profiles, including LinkedIn and Instagram.

Our packages include managing their inbox and comments, designing images, creating the content to post every day, grow their network, bring personality to their pages, share topical industry related news, participate in networking hours, generate SEO benefits, upload videos, update their profile as and when and work on this seven days a week.

As a rep, you will be solely responsible for generating new business using your own methods and expertise. Whether this is sending emails (we will set up a company email address for you), attending networking events, word of mouth, promoting on your own social media platforms, the choice is up to you. We will be managing their social media activity in house and have the relationship with the client.

*An example of how much you could potentially receive, if you targeted 10 clients on our highest package that's a fantastic £990 a month just for referring them to us, on top of your initial commission of £145.*
